How Did You Change After ARC?

My life change completely after ARC. My mind expanded and I started to see life in a bigger perspective. In ARC I learned to dream bigger and to never give up because everything is possible.

What Are Your Goals for the Future?

Some of my goals for the future are to finish school with a professional degree in Civil Engineering, travel around the globe with my sister and buy my mom her dream home.

What Are Your Strengths?

I am friendly and outgoing. When speaking in front of an audience, I am confident. I am also really determined to finish everything I set my mind to do and never give up.

My mom is my role model because she has taught me to never give up and always believe that I could do anything I set my mind to.
