

5th Annual Bioblitz

At UC Berkeley Sagehen Creek Field Station

SATURDAY:
August 3rd
8:30am-12:30pm

Nature enthusiasts of all ages welcome...

You bring your smartphones and enthusiasm and together we'll look for birds, mammals, insects, spiders, trees, and flowers within Sagehen Creek Field Station. A Bioblitz is a detailed study of biodiversity in a specific location over a specified period of time, bringing experts and volunteers together. People of all ages and skill levels are welcome!

***Must have iNaturalist application downloaded to smartphone prior to arrival and recommended to have some experience with making iNaturalist observations.

SWEP Family Session

8:30-10:30

SWEP educators will guide elementary-aged children and their families on an exploration of Sagehen Creek's macroinvertebrates.
